PERSONAL SUMMARY

I am currently a 4th year student of Bach Khoa University, majoring in Computer Engineering. As an enthusiastic and motivated individual, I am passionate about using my skills and experience to contribute to the success of any project or team I am a part of. With a background in Javascript development. I am committed to creating clean, efficient, and scalable code that meets the needs of users and stakeholders alike. With excellent problem-solving and communication skills, I thrive in fast-paced environments and enjoy collaborating with colleagues to find innovative solutions to complex challenges. Ultimately, I am looking for opportunities to continue growing and developing as a professional, while making a positive impact on the world through technology.

PROJECTS

My Porfolio
(06/2022 - Present)

Customer	Myself
Description	- A website contains my personal information and mini projects that I made during my studies in React - Link: https://github.com/trong2409/my-portfolio -Demo: https://trong2409.github.io/my-portfolio/
Team size	1
My position	Front-end dev
My responsibilities	- Analysis, design system - Module development - Optimize code
Technologies used	ReactJs

E-commerce back-end
(06/2022 - Present)

Customer	Myself
Description	- Back end for an E-commerce app, built with ExpressJs and MongoDB. - Main features of the app: • Login, register and authenticate. • CRUD operations for products, blogs,... -Link: https://github.com/trong2409/E-Commerce_back_end
Team size	1
My position	Dev
My responsibilities	- Analysis, design system - Module development - Optimize code
Technologies used	Express, MongoDB

E-commerce App
(06/2022 - Present)

Customer	Myself
Description	- Dashboard for E-commerce app, using API of E-commerce back-end - Main feature: Authentication, manage products, blogs, user, order, ... - Source dashboard: https://github.com/trong2409/E-commerce_front_end_dashboard - Dashboard demo: https://e-commerce-front-end-dashboard.vercel.app/ - Source website: https://github.com/trong2409/E-commerce_front_end_website - Website demo (In process): https://e-commerce-front-end-website.vercel.app/
Team size	1
My position	Dev
My responsibilities	- Analysis, design system - Module development - Optimize code
Technologies used	React, Bootstrap, Antd, Redux,...
